The season of the year known as house cleaning, has about come upon us. The hustling about of the house wife and the kitchen girls is an every day occurrence till every nook and corner has had a thorough cleaning. The decorating of walls and ceiling and windows is a consideration to be taken into account. New wall paper, new ceiling paper and decorations, new window blinds, in fact you wish to make the old rooms appear new, and add new charms to the home. We know of no place in the county of Henry, or in fact in this great Northwest corner of the State, where you can get a better out- fit than at the celebrated and well-known Drug and Book House of Saur & Balsley. They have a new and mammoth stock on hand, complete in the most minute particular. Choice patterns, superb borders, de- lightful styling, and such love- ly corner pieces. You should see their designs before you at- tempt to buy elsewhere. They have polite and gentlemanly clerks, who delight in showing goods, whether you wish to buy or not. Warren can trim up a kitchen, dining room, sit- ting room, bed room, parlor, hall, in fact a whole house in as nice style as any house in the State, and at the lowest pos- sible prices. Window shades in any hue and on any style of rollers desired. Don't make a mistake this time and get your goods from a traveling man or away from home, but call on Saur & Balsley Napoleon, O., first. Remember, they keep a choice selection at all times, and if you can't be satisfied they will order a sample lot or get just what you wish.

Then this is the season of the year to repaint and have a general re-fixing up of your home. Saur & Balsley carry one of the largest stocks of paints, lead and oils, brushes, varnishes and dryers, which can be found in this county. They have brands which they have been selling for the past quarter of a cen- tury which they fully warrant in quality and guarantee to be the cheapest and best in the market. They have a full and complete assortment of colors, either dry or ready mixed for immediate use, which anybody can apply who can handle a brush. Preserve your houses and implements by keeping them well coated with paint, and especially with the brands sold by Saur & Balsley.

**WASHINGTON.**  
**Russell Harrison's Father-in-Law Has a Fat Office.**  
**Speculation as to Who Will Succeed Justice Matthews.**  
Assistant Secretary Bussey Decides That a Soldier Injured While Playing Ball for Exercise is Entitled to a Pension—A Discrepancy of \$35 in the New York Sub-Treasury—Notes.  
WASHINGTON, May 16.—The appoint- ments made by the president Tuesday include that of ex-Senator Alvin San- ders, of Nebraska, to be a member of the board of registration and election in Utah territory, a position with a salary of \$5,000 a year and allowances. San- ders was a United States senator from Nebraska from 1877 to 1883, when he was succeeded by Mr. Manderson. Since then he has been the father-in- law of President Harrison's son, Russell, a position which since March 4 has been a very prominent and, as it turns out, a profitable one.  
The old gentleman is hale and hearty for his years, but his head is very hoary and he has reached the time of life when most men expect to be superannuated. There are a good many Harrisons, Scotts and McKees for whom places have yet to be found. There is a McKee at El Paso who wants to be a United States mar- shal in Texas. There are several other McKees, Scotts and Harrisons still avail- able. Sanders has not left Washington for a single day since March 4, and most of the time he has spent at the White House, where he has usually taken at least one meal a day.  
Probable Cabinet Changes.  
CHICAGO, May 17.—A Washington dispatch to The Chicago Times says: A Republican senator, who is supposed to be very close to the administration, is authority for the statement that the president has decided to fill the vacancy on the supreme bench, caused by the death of Justice Stanley Matthews, by appointing his old friend and law partner, Attorney General Miller.  
This would necessitate several im- portant changes, chief of which will be the promotion of Gen. Noble to the more distinguished position of attorney general, while First Assistant Post- master General Clarkson is to be re- warded for the splendid service he rendered his party in the last campaign by being made a member of the cabinet, succeeding Mr. Noble as secretary of the interior.  
This information, the senator says, is absolutely correct. He claims that it was first imparted to him several days ago by a member of the cabinet, and that he has since been able to corrob- orate it by sounding President Harrison. He thinks there is a strong likelihood that the appointment of Gen. Miller will be made within a week or two, and of course, the others would follow in rapid succession.  
The New York Sun Objects.  
NEW YORK, May 19.—The announce- ment by The Chicago Times that Pres- ident Harrison is to appoint Attorney General Miller justice of the supreme court is generally commented upon. The Sun says:  
"According to all that can be learned about the Hon. William Henry Harrison Miller he is an inoffensive and per- sonally estimable gentleman, well fitted to adorn the inner office of a law firm doing business in a city of the second or third class. Politically he is not a force, professionally he has his reputation to make. His appointment to a cabinet office estimated property almost to the point of fracture. For the president to provide his old friend and partner with a judicial office of the first importance and a life salary by putting him upon the supreme court bench would be a scandal of mag- nitude."  
Several minor appointments already made by Gen. Harrison on personal and family account have been extremely un- fortunate for his reputation. The best friend of the president is the man who tells him plainly now that his sense of delicacy in these matters needs sharpen- ing. Perhaps the Republican senator who is supposed to stand very close to the administration will undertake this function of true friendship.  
Would-Be Jurists Must Wait.  
WASHINGTON, May 18.—The politi- cians have ceased speculating upon the probable appointee as supreme court justice to succeed the late Justice Matthews. The most active candidates for the vacancy are the two citizens of Detroit, who are still having their claims presented. One is the circuit judge, H. B. Brown, and the other Lawyer Alfred Russell. To a senator who called at the White House in the interest of one of the candidates the president gave assur- ance that no appointment will be made before the meeting of congress in De- cember.  
Unsatisfactory Report.  
WASHINGTON, May 16.—Attorney General Miller has received a report from United States Marshal Jones, of Kan- sas, in regard to the conduct of himself and deputies upon the opening of Okla- homa to settlement.  
It is understood that the attorney general is not satisfied with the report, and that he will call upon the marshal for a supplemental report giving the name of each officer who filed a claim, and a description of the lands referred to by him, together with an account of the attending circumstances.  
Only Thirty-Five Dollars Short.  
WASHINGTON, May 16.—The annual count of money at the New York sub- treasury revealed a discrepancy of \$35 out of a total of \$184,000,000 to be ac- counted for. The shortage resulted from the acceptance of a few counterfeit notes in the hurry of business, and by the loss of a few pieces of silver. The loss was promptly made good, and a re- ceipt in full given to ex-Treasurer Hyatt, who was responsible under his bond for the entire amount.  
Re-Established.  
WASHINGTON, May 16.—Secretary Tre- cy has re-established the office of gen-

eral inspector of the naval dry dock, which was abolished by Secretary Whit- ney. Pay Director Thomas H. Looker has been appointed to the position. His duties will consist in making quarterly inspections of pay officers' accounts on the Atlantic coast.

T. Granger Stuart, M. D., F. R. S. E., ordinary physician to H. M. the queen in Scotland, professor of practice of physic in the university of Edinburgh, writes: "Acute bronchitis is common especially in the advanced stages of Bright's disease, and tends to pass into the chronic state. Phthisis (consump- tion) in its various forms is found oc- casionally associated with these renal (kidney) affections. It usually proves fatal while the renal malady is yet in its early stage." It thus becomes evi- dent that consumption and bronchitis are intimately associated with kidney disease and Warner's Safe Cure should be taken early in the disease to prevent the damaging influence the kidney malady exerts upon the respiratory organs.  
**Further Particulars of the Wabash Sale and Plans of Consolidation.**  
The lines of the Wabash railway east of the Mississippi river were sold be- fore Judges Gresham and Jackson yes- terday to Messrs. Ashly and Joy, repre- senting 60 per cent. of the bonds and acting in the interests of the Wabash Western purchasing committee, for \$15,550,000. The amount received se- cured the first and second mortgages in Ohio and the first on all the rest of the road. Said President Ashley, of the Wabash Western: We will consolidate the Wabash railway and the Wabash Western by August 1. We will prob- ably call the complete system the Wa- bash railway company. We have issued and sold \$34,000,000 50 year 5 per cent bonds on the consolidated system. Of this we will use \$11,741,000 to pay the first mortgage on the Wabash Western. We will also issue second mortgage bonds of \$14,000,000 on the lines east of the Mississippi, making \$38,000,000 on these lines. There are, besides, on the lines east of the Mississippi, \$30,000,000 bonds depending on the income and \$62,000,000 in stock. The minority bond holders made a great mistake in not accepting 5 per cent bonds for their 7 per cents, instead of compelling us to buy them out. The new bonds are al- ready at a premium of 1 1/2 per cent and I think will go between 5 and 10. They not only lost money by their refusal, but compelled us to pay about \$400,000 more than it would otherwise have cost us.—*Bee 16.*
